

We have had a lovely first few days in France Class with the new Nursery children and we have all enjoyed working and learning together to explore the classroom and different areas of the school. We have explored our school, met Mrs Gray in the office and found out about all the important jobs she has to do every day.

Our topics this half term are ourselves and the local environment and we will also be learning about our class country France. We can already say 'Bonjour' to answer the register and when Mrs Critchlow came to see us on our first day we said 'Au Revoir' when she left. Mrs Whaley our teacher is very impressed already! We are also looking forward to cooking some French cuisine and tasting lots of traditional French food.

We went and visited the sensory garden on a nature walk and had our picture taken next to the dragon fly. We also found 2 plums when we were playing at break time. Over the next few days we are going to go and collect some more to use as a topping on the crepes we are making next week in Let's Get Cooking.
