

St George Class - Our first few days in school - Nursery and Reception

We have had a lovely first few days in St George Class and we have all enjoyed working and learning together. We have explored the different areas of our classroom and we also visited different areas in school and found out where Mrs Critchlow does all her impor

Our topics this half term are Ourselves and the Local Environment. We hope to get out and about around the village on a neighbourhood walk and hopefully recognise lots of different places. We are looking forward to reading lots of different types of stories each week which our learning will be based around. We have been busy already and have started to paint self-portraits for a display and have enjoyed using lots of different colours and mixing them together to make new ones.

Over this half term we are looking forward to doing lots of exciting activities and to be working with Newcastle United again during our PE sessions. We also are very lucky because we will be doing some baking and our first activity is going to be decorating biscuits to look like our faces - it will be fun to see if we can recognise who each other is!

We are looking forward to spending as much time outside and we are very lucky that we have waterproofs and wellies in school so that we can use them to get outside and experience the ever-changing Northumbrian weather!
